

MIRKWOOD DESIGNS presents...

Jeweled Bookmarks

*Make "jewelry" for your most treasured books.
(Actually, they're pretty bookmarks made from ribbon and beads.)*

Supplies

- 12-inch piece of ribbon (double-sided satin works best, but you can use other types to suit your taste)
- Assorted beads
- Beading thread, such as Nymo
- Beading needle
- Fray Check (optional, to seal the ends of some ribbon)

Instructions

1. Fold under both ends of the ribbon twice and use tiny stitches to sew securely.
Note: If you are using a heavier ribbon, you can use Fray Check to seal the cut end, and then just fold once and sew.
2. Sew lengths of beads to each end, mixing and matching colors and sizes. Be creative!
