MIRKWODD DESIGN& presents... Translucent Triangle Petal Card (page 2 of 2)

Supplies

- 1 sheet lightweight translucent vellum
- Scissors
- Bone folder
- Transparent double-sided tape or lightweight paper glue
- Dried, pressed leaves or flowers
- Permanent fine-tipped pen to write your message (regular ink will smear on the vellum)

Instructions

- 1. Print this page onto plain paper and trace the template onto one half of the sheet vellum.
- 2. Fold the vellum in half and carefully cut the circle out of both layers at once.
- 3. Keeping the circles together, use the bone folder to trace the triangle sides, pressing hard enough so that you make an indentation in both vellum circles.
- 4. Remove the top vellum circle and write your message in the triangle area.
- 5. Carefully position dried and pressed leaves or flowers on the bottom vellum circle (you can use a small dab of glue to hold them in place).
- 6. Add a small piece of transparent double-sided tape or a dab of lightweight paper glue in each of the three triangle corners.
- 7. Very carefully reposition the top vellum circle, matching the fold lines. Press the taped/glued corners so that the two layers stick together.
- 8. Fold the three edges along the fold lines, tucking the third edge under the first.
